Notice Concerning Revisions to Full-Year Financial Results Forecasts

Sodick Co., Ltd. (the "Company") hereby announces that in light of the most recent operating trends, a decision was passed at the meeting of the Board of Directors held on November 6, 2026, to revise the financial results forecasts for the fiscal year ending December 31, 2026, disclosed on August 7, 2026, as described below.

1. Revisions to full-year consolidated financial results forecasts for the current fiscal year (January 1, 2026 through December 31, 2026)

	Net sales	Operating profit	Ordinary profit	Profit attributable to owners of parent	Earnings per share
	Million Yen	Million Yen	Million Yen	Million Yen	Yen
Previously announced forecasts (A)	97,000	9,200	9,900	7,400	148.07
Revised forecasts (B)	101,400	11,000	12,000	9,500	179.30
Change (B-A)	4,400	1,800	2,100	2,100	
Change (%)	4.5	19.6	21.2	28.4	
(Reference) Consolidated results for the previous fiscal year (FY ended December 31,2025)	80,572	4,224	5,231	4,514	89.19

2. Reason for revision

With respect to the consolidated financial results forecasts for the fiscal year ending December 31, 2026, sales of EDMs in the Machine Tool Segment have remained strong, supported by robust demand in Greater China. In addition, in the Industrial Machinery Segment, sales of precision injection molding machines for optical connectors have continued to perform well, driven by demand related to AI and data centers. As a result, net sales are expected to exceed the previously announced forecast. On the profit side, operating profit is expected to exceed the previous forecast due mainly to improved factory utilization associated with increased production volumes. Furthermore, profit attributable to owners of parent is expected to surpass the previous forecast, primarily reflecting the compensation for forced relocation income in the third quarter.

The principal exchange rate assumptions underlying the revised forecast for the fourth quarter of the fiscal year are JPY 158 per U.S. dollar and JPY 180 per euro.

Note: The forecast figures contained in this document are based on information currently available to the Company and certain assumptions deemed reasonable as of the date of this announcement. Actual results may differ

materially from these forecasts due to various factors.
